

VITA

Emmy & Alex
Young Director & DOP Duo
and Photographer

Emmy und Alex Zimmermann didn't just commit to spend the rest of their lives together.

The Berlin based rock 'n' roll couple from bavaria also work together as a slick, almost telepathic, director-DoP duo harnessing years of experience in film production, photography and even electrical & mechanical engineering.

Emmy is the director and photographer whereas Alex focuses on camera and edit, but this distinction isn't always that clear due to the synergy in their work.
