Thomas Ternes
Director & DOP

Thomas Ternes is a German director and cinematographer. He developed a strong affinity for portraits combined with the automotive spectrum. Thomas began immersing himself into an intimate look into the lives of various subcultures including touring with several musicians. He fell in love with capturing their energy and character in images.

To master all of the technical skills he started out to work as a fulltime photographer's assistant for Alex Rank and Uwe Duettmann for several years. Continuing working with Paolo Roversi, Glen Luchford and Ellen von Unwerth.

In 2020 Thomas pushed himself even further and started to build a strong cinematographic portfolio including international productions for ADUI, BMW, VW, SMART, MERCEDES BENZ, HYUNDAI, CASTROL and many others.

His ability of being a professional photographer supports him to create lights, shadows, graphic settings and directing talents.
